TRY IT YOURSELF · ABOUT 3 MINUTES

Be a share house

One of you stays in the kitchen. One of you goes shopping.

1

At the Home Dock (laptop)

Add something you want to the shared list, or leave a request for whoever shops.

2

Take the Cart Unit (phone)

You're at the shops now. Find your housemate's request on the list and tick items off. Keep an eye on the budget left.

3

Scan and compare

Scan a product on our shelf, or type `9300000000019`, to compare options by price.

+

Watch it sync

Whoever is at the Dock: add one more item now. It appears on the shopper's phone.
